

THE THRILLING HISTORY OF THE ST. LOUIS JUNTA

Mexicans Enjoy Real Strenuous Life—A Record of Mysteries, Arrests, Revolutions, Disappearances, Conspiracies, Whispers, Blood, Politics and Diplomacy Unparalleled Outside Gaboriau's Novels.

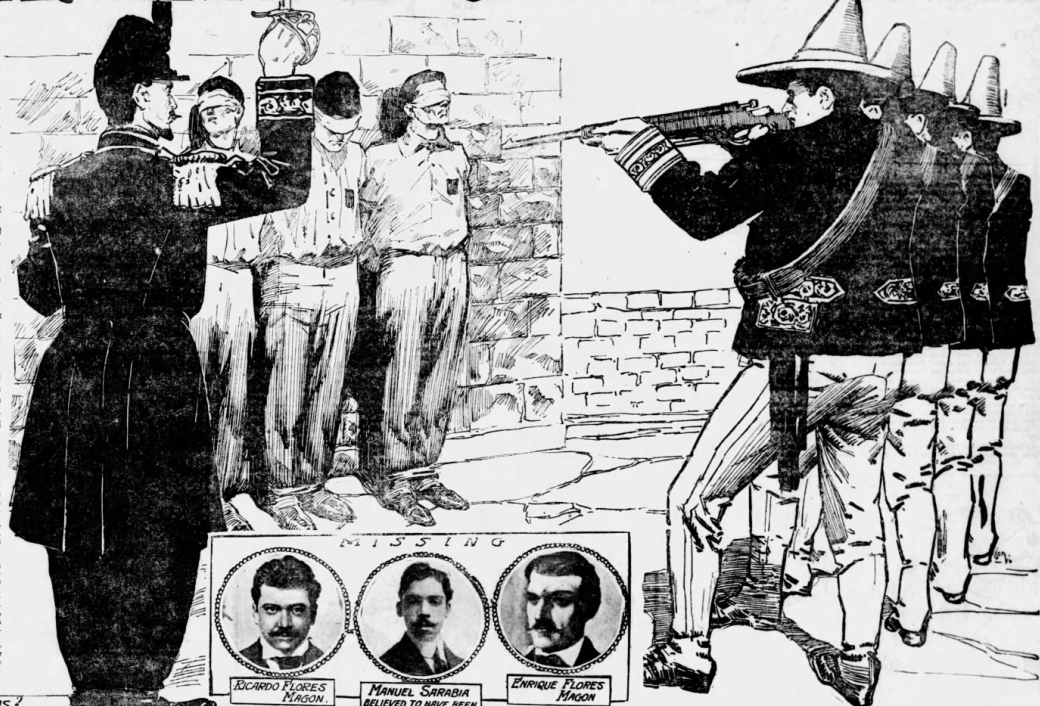

HERE is the skeleton of an amazing story. It is a panorama of the experiences of a handful of men and women enlisted in what they term "the cause of liberty." It is the first connected statement ever published of the extraordinary history of the St. Louis Junta of the Liberal Party of Mexico.

Refugees from their own country, unable when they first came to St. Louis to speak the English language, arrested and re-arrested, confined in jail and their property confiscated, deprived of what they believed to be "the freedom of the press"—but what others contended was license and libel—the members of the "Mexican Junta" have contrived in a little more than a year, to arrest the attention of nations and bring about serious international complications.

LOVE and counterplots, conspiracies and counter-conspiracies, mystery upon mystery, arrests, re-arrests, discharges, imprisonments, arbitrary expulsions, murder charges, night raids, kidnappings, border crossings, launching of steamships, and the romance of war furnish the dramatic tripplings and settings of this story. High facts and color are here, almost as far as possible and still in plain, circumstantial statement of actual happenings.

But the Washington birthday-party came to St. Louis from San Antonio, Tex., a party of half a dozen Mexican men with their wives, children and the old fathers and mothers of two members. They took a house at 10 North Channing avenue, at St. Louis, and began the publication of a paper called "Regeneracion."

But the "Regeneracion" published a "manifesto" denouncing the organization of the "Junta of the Liberal Party of Mexico" with headquarters in St. Louis. Antonio Villarreal, Mexican president, former

IS UNCLE SAM'S HAND IN THIS?

IN MARKED contrast with the history of the St. Louis Junta is that of the Cuban Junta in New York during and following the Spanish-American war. The Cuban Junta was organized in 1895, and its members were mostly Cuban exiles in New York. The Cuban Junta was organized in 1895, and its members were mostly Cuban exiles in New York.
